

AutoStem™ Gen III - Splitter

- Double electric trigger cable
- Extremely delicate demolition work
- Maximum hole size: 8 mm

Diameter and grams: 6mm x 3g
Performance: 0.3m³ /cartridge
Cartridges each carton: 150

Diameter and grams: 6mm x 6g
Performance: 0.6m³ /cartridge
Cartridges each carton: 150

AutoStem™ Gen III - Fragmentor

- Double electric trigger cable
- Most significant demolition work
- Maximum hole size: 18 mm

Diameter and grams: 16mm x 15g
Performance: 0.8m³ /cartridge
Cartridges each carton: 100

Diameter and grams: 16mm x 25g
Performance: 1.0m³ /cartridge
Cartridges each carton: 100

Diameter and grams: 16mm x 35g
Performance: 2.0m³ /cartridge
Cartridges each carton: 100

AutoStem™ Gen III - 35mm

- Double electric trigger cable
- Can also be used with non-electric detonators possibility to micro delay the charges)
- Safety switch
- Waterproof
- Medium demolitions, excavations in tunnels and trenches
- Maximum hole size: 40 mm

Diameter and grams: 35mm x 60g
Performance: 3.0m³ /cartridge
Cartridges each carton: 90

Diameter and grams: 35mm x 100g
Performance: 6.0m³ /cartridge
Cartridges each carton: 90

Diameter and grams: 35mm x 180g
Performance: 10m³ /cartridge
Cartridges each carton: 70

Diameter and grams: 35mm x 300g
Performance: 12m³ /cartridge
Cartridges each carton: 50

AutoStem™ Gen III - 43mm

- Double electric trigger cable
- Can also be used with non-electric detonators (possibility to micro delay the charges)
- Safety switch
- Waterproof
- Medium/Large demolitions, excavations in tunnels, trenches and low banks of rock
- Maximum hole size: 50 mm

Diameter and grams: 43mm x 200g
Performance: 10.0m³ /cartridge
Cartridges each carton: 50

Diameter and grams: 43mm x 350g
Performance: 12.0m³ /cartridge
Cartridges each carton: 35

Diameter and grams: 43mm x 500g
Performance: 18.0m³ /cartridge
Cartridges each carton: 30

AutoStem™ Gen III - 87mm

- Double electric trigger cable
- Can also be used with non-electric detonators (possibility to micro delay the charges)
- Safety switch
- Waterproof
- Large demolitions, excavations in tunnels and large rock banks. Usable in quarries.
- Maximum hole size: 94mm

Diameter and grams: 87mm x 1000g
Performance: 40.0 m³/cartridge
Cartridges each carton: 8

Diameter and grams: 87mm x 1700g
Performance: 50.0 m³/cartridge
Cartridges each carton: 8
